# 1973: AN EVEN BIGGER YEAR FOR ELECTRIC TRAINS AND RACING

**Explosive growth of these categories now in its third year.**

It started at the turn of the seventies. Consumers wanted products that offered really long-lasting play value. At the same time, there was a return to more traditional hobby items, particularly those which adults, as well as kids, could relate and participate.

These basic trends and attitudes continue. Already they have contributed to an unprecedented demand for electric trains and racing sets. And all evidence indicates that 1973 will break all previous records in these categories.

**Effective merchandising makes the big difference.**

Tyco is the leading manufacturer of electric trains and racing. While most manufacturers of these products have benefited from the increased consumer demand, Tyco's growth rate has far outdistanced the total growth rate of these two categories.

The reasons lie in a unique combination of product, advertising, and merchandising support, that has enabled thousands of retailers to reach new profit

and volume levels with both sets and accessories from Tyco.

The greatest success has been enjoyed by those retailers who have set up Tyco Train/Racing Departments to effectively merchandise higher-priced sets as well as a broad range of accessories.

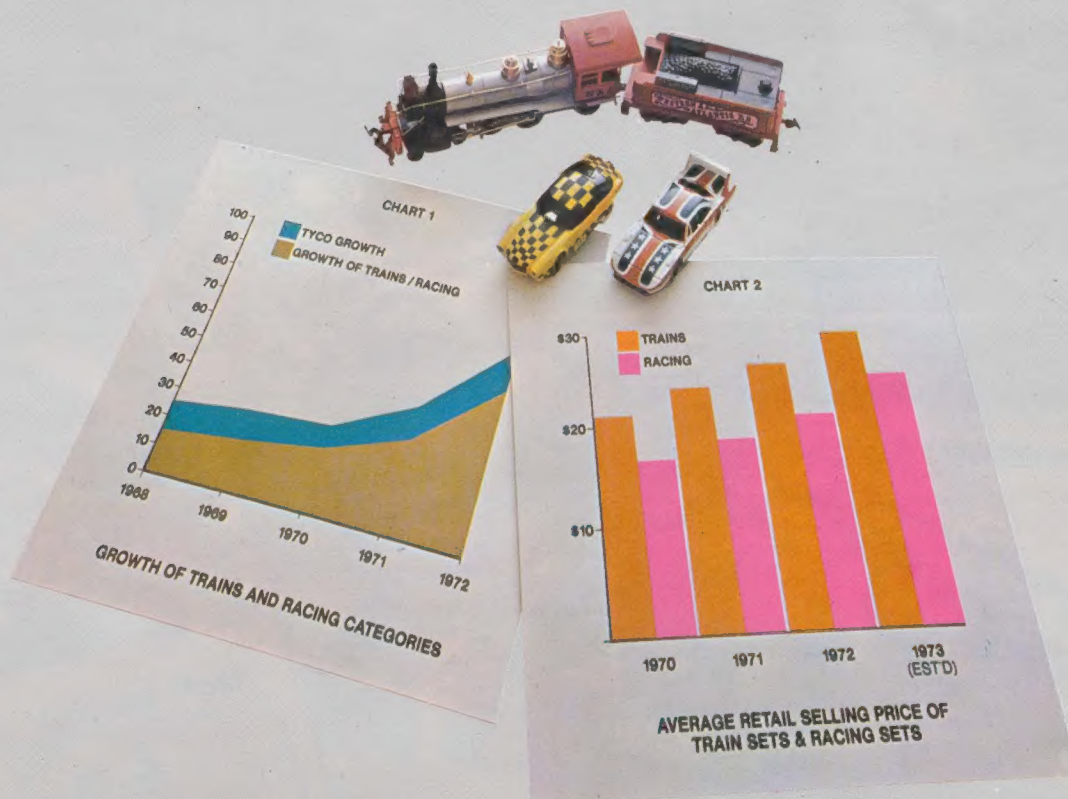

This has been a major factor in the increase of the average price of sets sold, and the resulting increase in total sales volume in these categories.

**Tyco puts it all together for 1973.**

Tyco supports its line with a broad range of marketing services, including effective consumer advertising, gondola plans, counter merchandisers, ready-to-use local ad material, and outstanding packaging.

Many manufacturers provide some of these things. But Tyco does more, does them more thoroughly, and takes greater care to serve the needs of retailers.

On the following pages, you will find the highlights of the Tyco advertising and merchandising program for 1973. Tyco can help make it *your* biggest year.

# THE BIGGEST AD CAMPAIGN IN TYCO HISTORY!

## NETWORK TV

Beginning October 29th, the strongest campaign ever put behind electric trains and racing. Tyco will be seen on big-audience, all-family and sports TV shows on the major networks—shows like *Wide World of Sports*, *The Bold Ones*, and *Saturday Night at the Movies*.

# EFFECTIVE MERCHANDISING MAKES THE BIG DIFFERENCE

The Tyco Electric Train/Racing Department: It attracts attention; encourages step-up selling; and invites the purchase of additional accessory items.

Get greater returns from your counter space. It's far more profitable to merchandise the *categories* than to just sell *items*.

Use these 3 proven Gondola Layout Plans. They provide the best display and selection in the minimum space. In as little as 8 feet, you can generate extra volume with a Tyco Electric Train/Racing Department.

Plan a *balanced* assortment. Each Layout Plan includes a recommended merchandise mix. This is shown in parentheses ( ), following Item Description.

And Tyco's free counter merchandisers for racing cars, locomotives and train accessories, are an important part of this total concept.

## TYCO INTRODUCES 4-SPEED S/S STICK-SHIFT RACING CONTROLLER

A new element of *realism* for home racing! With 4-Speed Stick-Shift, you control the power and speed of your car, by shifting gears—just like the Pros.

### YOU SHIFT THE GEARS TO WIN THE RACE

Start in "Neutral" (the middle of the H)

Shift into 4th gear, for full speed down the long straightaways, through the hi-banked curves

Shift into 1st gear, and the race is on...

Return to "Neutral" to cut off power, slow down your car

Shift into 2nd gear, for the tricky curves...

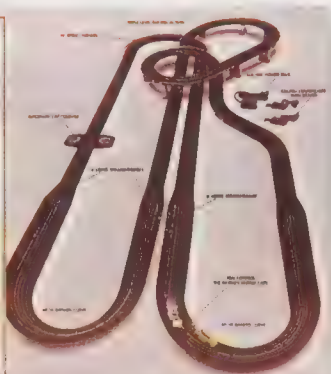

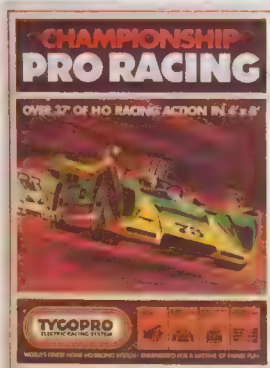

Shift into 3rd gear, and your car streaks ahead...

**Racing set contents:** 2 Tycopro racing cars • 2-4 speed stick shift controllers • 53 sections of track (17-9" straight, 8-9" straight transitional, 1-9" straight terminal, 4-6" straight, 1-6" 50 lap automatic lap counter, 8-9" radius bank curve— $\frac{1}{6}$  circle, 1-9" radius curve— $\frac{1}{8}$  circle, 4-9" radius curve— $\frac{1}{4}$  circle, 9-12" radius curve— $\frac{1}{8}$  circle) • 22 pier supports, footings and extenders • 8 crash barrier fence with flags • 4 speed aprons • Electric power pack, U. L. listed.

## CHAMPIONSHIP S/S PRO RACING

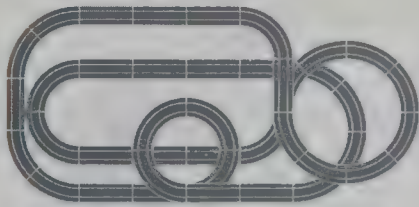

You control the world's fastest racing cars over this great championship racing circuit. You are the winner if you think fast, and act fast with your realistic 4-speed stick shift controllers... as you make your Tycopro car scream down the 6' long straightaway, around the two new 40° High Banked Curves at full speed, up the triple level, through the automatic lap counter, and past the finish gate. Over 37' of track in just 4' x 8' of space.
